

Best Entertainment for Nokia 5310 Xpress Music Red mobile

The Nokia 5310 Xpress Music Red mobile has a dedicated audio chip that helps it produce crystal-clear sound from a wide variety of digital audio file formats stored on optional MicroSD memory cards, and it provides up to 20 hours of music playback. It also includes an FM radio. It features dedicated music playback controls along the side of the phone, next to the brightly colorful 2-inch LCD screen. The Nokia 5310 Xpress Music Red mobile operates on GSM 850, 1800, and 1900 networks and can handle high-speed data connectivity via T-Mobile's EDGE network (which stands for Enhanced Data Rates for Global Evolution). The Nokia 5310 Xpress Music Red mobile high-speed, mobile data and Internet access technology is fast enough to support a wide range of advanced data services (with average data speeds between 75-135Kbps), including video and music clips, full picture and video messaging, high-speed color Internet access, and email on the go.

The Nokia 5310 Xpress Music Red mobile measuring just 0.39 inches thin and weighing 2.5 ounces, the svelte candy bar style 5310 has a standard keypad, five-way navigator, send and end keys, and two soft keys, as well as music playback buttons (play and pause, reverse, forward) set on the left side of the LCD. The Nokia 5310 Xpress Music Red mobile has 2-inch screen has a 240 x 320-pixel resolution and support for 16.7 million colors. The Nokia 5310 Xpress Music Red mobile phone also includes a mini-USB connection and a 3.5mm headphone jack at the bottom. It has an internal 30 MB memory (which can be expanded up to 4 GB using optional MicroSD memory cards), and the phone book can store up to 2000 contacts (each with three numbers and one text field).

The Nokia 5310 Xpress Music Red mobile provides the ultimate music playback experience from a mobile phone. You'll be able to play virtually any file, thanks to compatibility with MP3, MP4, AAC, e-AAC+, and WMA as well as secure WMA songs purchased from Internet music stores. It also offers easy synchronization with Windows Media Player 10 and 11. Listen, create playlists, and manage your music within the 5700. The Nokia 5310 Xpress Music Red mobile has 2-megapixel camera on the back also captures videos. The Nokia 5310 Xpress Music Red mobile phone provides Bluetooth version 2.0 wireless connectivity with EDR (enhanced data rate), and includes profiles for communication headset, hands free car kits, and audio/video remote control. With the A2DP Bluetooth profile, you can stream your music to a pair of compatible Bluetooth stereo headphones. You can connect your laptop (either via Bluetooth or wired USB) and enjoy dial-up networking--surf the Internet, send email, and access files from a server. The Nokia 5310 Xpress Music Red mobile offers a full range of email, text, and multimedia messaging options. It includes support for IMAP4, POP3, and SMTP email, plus support for attachments such as DOC, PDF, XLS, JPEG, 3GP, and MP3. In addition to SMS text and MMS multimedia messaging, this phone incorporates Nokia Xpress audio messaging, which allows you to personalize messages in a spontaneous and creative way. By using a specially designed menu, an audio message can be recorded and sent with only a few clicks of a button. Xpress audio messages can be sent to all MMS-enabled GSM handsets, and can also be shared with multiple recipients. Other features include Bluetooth connectivity for both stereo music streaming and communication headsets, full Opera Mini web browser, access to your email (with support for viewing attachments), and up to 3 hours of talk time.
