

## international nursery in dubai

Nursery school education is the provision of education for children before the commencement of statutory education, usually between the ages of three and five, dependent on the jurisdiction. Toddlers International Nursery school is also known as nursery school, day care or kindergarten.

At Toddlers International Nursery, we pride ourselves in the emotional, social and physical development of the children in a relaxed, friendly, multi-cultural environment which endorses learning through play. At Toddlers International Nursery, we pride ourselves in the emotional, social and physical development of the children in a relaxed, friendly, multi-cultural environment which endorses learning through play.

Nursery school is generally considered appropriate for children between three and five years of age, between the toddler and school stages. During this stage of development, children learn and assimilate information rapidly, and express interest and fascination in each new discovery. Studies have proven that the most important years of learning are begun at birth. The environment of the young child influences the development of cognitive and emotional skills due to the rapid brain growth that occurs in the early years. Studies have shown that high quality nursery schools have a short and long term effect in improving the outcomes of a child.

Our nursery provides growth through a diversified learning environment that allows children in developing both social and intellectual intelligences. Primary objective to promote the social and educational adjustment of children within a framework that professional educators create. The framework includes structural (administration, class size, teacher-child ratio, etc.), process (quality of classroom environments, teacher-child interactions, etc), and alignment (standards, curriculum, assessments) components that are associated with each individual unique child that has both social and academic outcomes.

The curriculum is a combination of the best learning practices from the United Kingdom and leading international institutions compiled to deliver world class education. Our classroom environment is carefully planned and is designed to encourage children to develop their own pace. Individually, they develop their powers of concentration, a sense of responsibility, high self esteem and appreciation for other people and the world around them.

Our curriculum co-ordinator at Toddlers International has not only undergone extensive training in UK but is constantly updating her skill sets. Our Curriculum coordinator is dedicated to creating exciting teaching resources, detailed curriculum and the training of teaching all our staff. Children learn best when they are engaged and taught to think. Combine this style of learning with better nursery staff, higher wages, better parenting and all pre school learning establishments teaching in the best possible way and our nurseries will improve and so will our children chances of success. Take time to think carefully about the right nursery for you child. There are three quite different types of teaching methods offered by nurseries. So how do you choose the one that's right for you and your child? Picking the right nursery for your child can be a minefield of difficult choices, from location, to price to good feeling, which is also better for your child future, which toddlers International Nursery school can provide..
